

POSITION ANNOUNCEMENT

Quality Improvement and PCMH Specialist

Statewide non-profit healthcare membership organization seeks staff to lead community health centers in Patient-Centered Medical Home (PCMH). This includes preparing and training community health centers in all aspects of PCMH recognition and accreditation and supporting community health centers quality improvement projects and quality improvement teams.

Bachelor degree in nursing, health education or related field required with a minimum of 2 years experience in healthcare quality improvement. Excellent organizational and time management skills as well as superior communication skills are essential. Some travel required.

Salary Range: \$49,850-\$53,500
