

Request for Proposals
for
Laboratory Services
for
Association Member Organizations

Contract Dates: September 1, 2020 through August 31, 2023

Issue Date: February 26, 2020

Closing Date: April 20, 2020

I. Introduction

The Virginia Primary Care Association, (d.b.a. the Virginia Community Healthcare Association) is a 501(c)(3) non-profit partnership of community driven organizations dedicated to improving access to primary health care for all Virginians. The Virginia Community Healthcare Association is the statewide primary care association for all twenty-six Virginia based Federally Qualified Health Centers, 2 West Virginia Federally Qualified Health Centers, 1 FQHC Look-Alike, and 1 medical provider that follows similar service guidelines operating with over one hundred and fifty delivery sites (For a listing of the Virginia Community Healthcare Association members participating in this offering reference *Appendix A*). These health centers are non-profit, community-based health care providers that work in medically underserved areas and/or with medically underserved populations. They provide primary healthcare regardless of a patient's ability to pay. Services include: primary and preventive health care, laboratory services, and in many cases, pharmaceutical, dental, behavioral health services, vision, and a variety of enabling services.

For many, Virginia Community Healthcare Association members are the only source of medical care, serving everyone in the community from the neediest person to the local small business owner. Health centers in Virginia served as a medical home for over **350,000** Virginians in 2018. Of those, more than **31%** had no health insurance coverage and more than **92%** were at or below 200% of the Federal Poverty Level. By engaging in the shared purchase of laboratory services the Virginia Community Healthcare Association is helping community health centers address the needs of their communities, especially those uninsured or underinsured.

II. Administration

- A. **Overview:** This RFP was developed to provide potential Offerors with the information required to prepare proposals. This section outlines the administrative procedures and guidelines for preparing a proposal. Nothing in this RFP constitutes an offer or an invitation to contract.
- B. **Liability:** The issuance of this document and the receipt of information in response to this document will not cause the Virginia Community Healthcare Association to incur any liability or obligation, financial or otherwise, to any Offeror. The Virginia Community Healthcare Association assumes no obligation to reimburse or in any way compensate an Offeror for expenses incurred in connection with its proposal.
- C. **Nondisclosure:** All proposal information will be treated as confidential prior to contract award and will not be disclosed except as required by law or by court order.
- D. **Selection:** The Virginia Community Healthcare Association does not discriminate against faith-based organizations or an Offeror because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state and Federal law relating to discrimination in employment.

III. Contract Period

This contract application is for the time period of September 1, 2020 through August 31, 2023 with the possibility of a three (3) year extension at the recommendation from the Virginia Community Healthcare Association staff and the Board Shared Services Committee.

IV. Laboratory Needs

The Virginia Community Healthcare Association members utilize a wide variety of laboratory services. For this reason, services must be of a comprehensive scope and processed in a timely manner. For a listing of the most frequently utilized laboratory services reference *Appendix B*.

V. Vendor Capability

Vendors must meet the following criteria:

- a) Must be able to service the entire state. No regional contracts will be let.
- b) Must ensure daily pick-up of lab samples, Monday through Friday
- c) Must return lab reports, by fax or email, within forty-eight hours of pick-up or provide listing of lab reports for which this requirement cannot be met.
- d) Must process billing information back to the health center within 30 days.

VI. Electronic Records Interface

Health centers employ a variety of electronic medical record systems. For this reason the following criteria must be met:

- a) The vendor must be able to provide bi-directional interfaces for integrating with the centers' electronic medical record system for ordering, billing and data management purposes. The interface must be tested and installed at the vendor's expense. The vendor will be responsible for working directly with 3rd party electronic medical record system vendors.
- b) Additional lab information system point of entry may be required to be provided for health centers that do not currently use an electronic medical record system. This may include but is not limited to on site computer systems or web based ordered systems. Please provide a detailed description on how this would be accomplished.
- c) All systems and interfaces must be Health Level Seven (HL7) compliant. Electronic lab results must be delivered in structured data field format and all labs associated with LOINC codes.
- d) Training related to the utilization of the interface shall be the responsibility of the vendor and provided on site to each health center.
- e) The vendor agrees to deliver any functionality necessary in order to meet patient centered medical home ("PCMH") standards as published by the Joint Commission, the National Committee on Quality Assurance ("NCQA") or any other PCMH designating body, as well as any meaningful use requirements.

The applicants must describe any current interfaces or other initiatives involving health information exchange at either the local, community, regional, state or national levels. Include details describing payment responsibilities.

VII. Value Add Services

Laboratory data is increasingly becoming a relied upon source to evaluate clinical outcomes and assist in benchmarking for quality improvement initiatives. For this reason, applicants should demonstrate the ability to offer analytics reports and dashboards that highlight utilizing lab services in a more efficient manner (lab stewardship), identify patients having multiple chronic conditions (basic risk stratification), and identify laboratory gaps in care. Applicants should also be able to address any partnerships that assist in case/care management.

VIII. Proposal Options

Option 1 – Vendors may respond to this request on a projected fee structure based on adjusted pricing for eighty (80) percent of the utilization listing (*Appendix B*).

Option 2 - Vendors may choose to respond to this request on a projected fee structure based on adjusted pricing for eighty (80) percent of the utilization listing (*Appendix B*) and an agreement to provide laboratory services at no charge for all patients designated by the centers as eligible for a sliding fee discount. Sliding fee discounts constitute approximately twenty (20) percent of all laboratory costs to health centers.

Vendors may choose to respond to either or both options. In addition to responding to the above option(s), vendors may also propose new models that have been deployed with other Associations.

IX. Timetable

Proposals Due to the Association: **April 20, 2020**

Review of Proposals by Association Review Committee: **June 12, 2020**

Notice of Contract Award: **June 18, 2020**

Initiation of New Contract: **September 1, 2020**

X. Contact Information

For the purposes of this Request for Proposal contact:

Lara D'Antonio

Director of Business Strategy and Innovation

Virginia Community Healthcare Association

Phone: 804-237-7677 ext 1229

Email: ldantonio@vacommunityhealth.org

Vendors contacting any other individual at the Virginia Community Healthcare Association to discuss this RFP or related business may be disqualified. The Virginia Community Healthcare Association contact reserves the right to ask for clarifying questions

XI. Submission

Submit one (1) original proposal and three (3) copies in a sealed envelope or package to:

Lara D'Antonio
Virginia Community Healthcare Association
Laboratory Services RFP
3831 Westerre Parkway
Henrico, VA 23233

- Proposals are due by 5:00 pm EST, Monday, April 20, 2020. Proposals received after that date and time will not be accepted.
- The Proposal is to be signed by an authorized representative of the Offeror

XII. Qualifications of Offerors

The Virginia Community Healthcare Association may make such reasonable investigations as deemed proper and necessary to determine the ability of the Offeror to perform the services/furnish the goods, and the Offeror shall provide to the Virginia Community Healthcare Association all such information and data for this purpose as may be requested. The Virginia Community Healthcare Association reserves the right to reject any proposal if the evidence submitted by, or investigations of, such Offeror fails to satisfy the Virginia Community Healthcare Association that such Offeror is appropriately qualified to carry out the obligations of the contract and to provide the services and furnish the goods contemplated therein.

XIII. References

Offerors shall provide a list of at least three business references other than the Virginia Community Healthcare Association or member of the Virginia Community Healthcare Association, where similar goods or services have been provided. Each reference shall include the name of the organization, the complete mailing address, the name of the contact person, telephone number, and email address.

XIV. Statement of Property

The Virginia Community Healthcare Association holds sole ownership of responses after submission. The Virginia Community Healthcare Association reserves the right to award or cancel this process at any time.
